Mobile Banking Overview

At **First City Bank**, we're dedicated to making your banking experience with us the best it can be. If you have an online banking account, Mobile Banking gives you access to your account information from a mobile device. This User Guide will give you all the information you need to use Mobile Banking. If you have any questions or need help, feel free to contact us.

Accessing Your Accounts

Mobile Banking offers you three easy, convenient ways to access your accounts:

- Send a text message using your mobile device.
- Use a mobile browser on your mobile device.
- Download an application to your mobile device.

You can choose any or all of these options, depending on the capabilities of your mobile device.

SMS Text Messaging Service

Use the SMS text messaging service to:

- Check account balances.
- Review recent account activity.
- Find ATM and branch locations.

Requirements

To use the SMS text messaging service, your mobile device must send and receive text messages to and from a short code. Most mobile devices are capable of sending and receiving text messages, so your phone is most likely compatible with Mobile Banking. Please note that some mobile service carriers charge for outgoing text messages or for each message sent and received.

Mobile Browser Service

Use the mobile browser service to:

- Check account balances.
- Review recent account activity.
- Transfer money between accounts.
- Pay bills.
- Change and cancel pending payments.
- Find ATM and branch locations.

Requirements

To use the mobile browser service, your mobile device must have an Internet browser and may require a data service plan. You access the Mobile Banking website using the link sent by SMS text message during the enrollment process.

Downloadable Application

Use the downloadable application service to:

- Check account balances.
- Review recent account activity.
- Transfer money between accounts.
- Pay bills.
- Change and cancel pending payments.
- Find ATM and branch locations.

Requirements

To use the Mobile Banking downloadable application, your mobile device must have an operating system that supports application downloads and may require a data service plan. You download the Mobile Banking application using the link sent by SMS text message during the enrollment process.

Mobile Banking Overview

Frequently Asked Questions

Is Mobile Banking secure?

Mobile Banking employs industry best practices with regards to security. It has been assessed against industry security criteria by a number of independent system security experts. At a high level, Mobile Banking offers the following security safeguards:

Authentication - Mobile browser and application solution customers are authenticated for every interaction with any Mobile Banking component. Customers are authenticated by username and password or by utilizing existing login credentials for single sign-on.

Encryption - 128-bit encryption is used for all transactions within Mobile Banking and between Mobile Banking and other Fiserv solutions (e.g., core banking and payment systems).

Fraud - Mobile Banking incorporates mechanisms such as transaction validation and transaction reconciliation processes to detect fraud.

Availability/Resilience - Mobile Banking is protected against malicious attacks through software and server hardening measures.

What if my phone is lost or stolen?

If your mobile device is lost or stolen, no one can access your account without knowing your password and, in some cases, your unique user name. To prevent unauthorized access to your account, you can deactivate your phone in Mobile Banking. To deactivate your mobile device, complete the How To Deactivate or Stop Using a Mobile Device section.

How do I stop using Mobile Banking on my phone?

To stop using Mobile Money on your mobile device, complete the How To Deactivate or Stop Using a Mobile Device section.

What if my phone number changes?

If your mobile phone number changes, simply update your mobile phone number in Mobile Banking. To update the mobile phone number, complete the How To Change a Phone Number section.

Is my personal or financial information stored on my phone?

No. Mobile Banking does not save any files with personal or financial information on your mobile device. That information stays strictly within online banking. Some phones (e.g., BlackBerry, Android) have logo and branding files that are copied to the mobile device. Those files do not contain any personally identifiable information.

How current is the account and transaction information?

When you view your account balance, you see the current available balance. When you view transaction history, you see the most recently posted transactions. Pending transactions do not display.

Can I add more than one mobile phone?

Yes. You can enroll several mobile devices for Mobile Banking. To add a new phone, complete the Mobile Banking Enrollment section.

Which phones can I use for Mobile Banking?

Hundreds of models are supported including these major brands: iPhone, BlackBerry, HTC, LG, Motorola, Nokia, Pantech, Samsung, Sanyo, and Sony Ericsson. Phones on a number of different operating systems are supported including, but not limited to, Android, BlackBerry, iOS, Symbian, Windows Mobile, Linux, Palm webOS, and Maemo.

I have a prepaid plan, can I use Mobile Banking?

Mobile Banking works with most prepaid plans, but we cannot guarantee that your carrier supports standard U.S. short codes. T-Mobile prepaid does not support short codes.

Which mobile service carriers support Mobile Banking?

Mobile Banking works on all major mobile service carriers in the U.S.: AT&T, Sprint, T-Mobile®, U.S. Cellular® and Verizon Wireless. Mobile Banking also works on a number of the smaller service carriers, including, but not limited to, Boost Mobile, Cricket Wireless, Metro PCS, Pioneer Cellular, Union Wireless and Virgin Mobile USA.

How To Request Help

1. Complete the following receive additional information on the Mobile Banking keywords:
2. Send " **HELP** " or " **HLP** " to the short code received after activating the mobile device.
3. A text message is returned displaying a list of acceptable keywords.

Frequently Asked Questions

Are the keywords case-sensitive?

No. Whether you type "BAL" or "bal," a response with your account balance information is sent to your mobile device.

What should I do if I don't get a response to a request?

Make sure you are sending text messages to the <short code>. Check the keyword and any additional information required for the request, such as the financial institution's identifier, account nickname, or address.

Why are my results sent as multiple messages?

Text messages are limited to 160 characters. If your account information exceeds the character limit your account information is sent in multiple messages - no more than five at a time.

I have text messaging enabled on my mobile device, why can't I receive text messages?

Your mobile service carrier may be blocking short codes or you may have blocked short codes on your mobile device. Short codes must be enabled to use Mobile Banking. Short codes are abbreviated phone numbers, usually five digits, used to send Mobile Banking messages.
